FROM WATER
the international water association CLUSTER

Call for Papers

8 - 12 SEPTEMBER, 2019
VENICE, ITALY

IWA RR2019: Resource recovery – from concept to standard practice

The 3rd IWA Resource Recovery Conference 2019 – Scientific Committee is looking for paper contributions that discuss global best practice, advances in fundamental science, innovative research, successful case studies as well as economic, legislative, and societal opportunities and barriers in relation to resource recovery from water.

Building upon the successful conferences in Belgium and the USA, the third Resource Recovery from Water conference will take place in the beautiful City of Venice.

This conference will play host to 300+ water professionals and practitioners from around the globe across a range of disciplines including researchers, water utilities, technology providers, policy makers, consultants as well as market segments and industries outside of the water sector that can valorize the recovered resources.

Procedure for submission

Authors willing to have their papers considered for platform or poster presentation should submit a 2-page abstract. A template can be downloaded from the conference website.

All submissions should be made via the IWA's online Platform and poster presentations will be selected upon recommendations from at least 2 reviewers, based on their scientific quality, significance, novelty and relevance to the scope of the conference.

Excellent abstracts, submitted before 28 February will be considered for peer review for publication in IWA publishing and ISI indexed journals, including a special edition on Resource Recovery from water in the prestigious journal of Water Research.

For further details on paper submission, please visit the conference website www.iwarr2019.org

Deadlines

- Abstract submission will open on **September 26, 2018**.
- Deadline for abstract submission is **February 28, 2019**.
- Authors of selected abstract will be notified by **April 30, 2019**.

Conference themes

The IWA RR2019 Scientific Committee invites you to present your work focused on the following conference topics:

- Novel technologies for resource recovery from water;
- Next generation resource recovery - breakthrough technologies and value-added products;
- Implementation of resource recovery at pilot and/or full-scale;
- Planning and implementation of next-generation resource recovery, wastewater treatment and sanitation infrastructure - global, regional and local perspectives.
- Monetization, financing and policy-making to foster resource-recovery driven circular economies
- Cross sectoral links and value chains – enhancing sustainability for society;
- Economic, legislative, and societal opportunities and barriers.

Programme Committee

- Francesco Fatone (Italy) (Conference Co-Chair and H2020 SMART-Plant coordinator)
- Ilje Pikaar (Australia) (Conference Co-Chair and Secretary of the IWA RRfW Cluster)
- David Stuckey (United Kingdom and Singapore) (Co-Chair, IWA RRfW Cluster)
- Olaf van der Kolk (Netherlands) (Co-Chair, IWA RRfW Cluster)
- Jeremy Guest (USA) (MC member IWA RRfW Cluster)
- Willy Verstraete (Belgium) (MC member IWA RRfW Cluster)
- Celine vanEeckhaute (Canada) (MC member IWA RRfW Cluster)
- Korneel Rabaey (Belgium) (MC member IWA RRfW Cluster)
- Ana Soares (United Kingdom) (MC member IWA RRfW Cluster)
