

# SuPER-W: Resource Recovery from wastewater: emerging technologies & concepts

pre-conference workshop @ IWA RR 2019 Venice (Italy) 08 September 2019

## This workshop includes:

- Achievements of the 4-year Marie Curie ITN project **SuPER-W** on Sustainable Product, Energy and Resource Recovery from Wastewater (<https://www.superw.ugent.be/>).
- SuPER-W showcases of 17 joint doctoral candidates in the field of RR from wastewater, sharing their experiences (results, successes, and failures).
- A “future challenges” **workshop café**. Attendees are challenged to reflect in ad-hoc thematic groups. Outcomes are presented to the attendees in a plenary closing session.

## Targeted participants:

Stakeholders involved in resource recovery (e.g., researchers, utilities, water professionals, technology providers, service providers, policy makers, consultants)

Participation is free - limited number of participants (TBD).

If interested to participate and/or to present an interesting case, please send an expression of interest to IWARR2019 Secretariat: [iwarr2019@univpm.it](mailto:iwarr2019@univpm.it).

This project has received funding from the *European Union's Horizon 2020 research and innovation programme under the Marie Skłodowska-Curie grant agreement No 676070*
